

Board Approved: November 3, 2011

Effective: Bill Rendered After January 20, 2012

---

**SCHEDULE 10, 12, 13, and 14 – IRRIGATION SERVICE**  
**Single or Multiphase**

---

**General Availability**

Available to seasonal power customers for irrigation pump motors, tower wheel motors, re-use pits and booster pumps within the District's service area.

**Type of Service**

Single-phase or three-phase, 60 cycles, at available secondary voltages.

**Irrigation Season**

Irrigation season shall be from April 15 through September 30.

**Fuel and Production Cost Adjustment**

A fuel and production cost adjustment including system energy losses based on the previous calendar year's experience may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to the fuel and production cost adjustment charged to the District by its power supplier during the irrigation season.

**Minimum Seasonal Charge**

The minimum charge shall be the greater of the following:

1. The Capacity charge
2. A charge of \$300.00
3. Contract minimum

**Municipal Agreement Charge**

Where the District has an agreement to pay the municipality a percentage of the customer's retail revenue, such percentage will be added to each customer's bill before application of a fuel and production cost adjustment.

**Determination of Capacity Charge**

The capacity charge will be based upon the horsepower of the service as indicated by the nameplate rating of the motor at the well or pump. In the case of service to a motor driving an irrigation pump, the tower motors will not be included in the capacity charge. For services to tower motors without the irrigation motor pump load, the capacity charge will be based on the sum of the nameplate ratings of the tower motors.

**Power Factor Adjustment**

For motors 20 horsepower or larger, the customer shall install secondary capacitors in conformance with the District's policy. In those cases where the customer refuses to install these capacitors, the District reserves the right to increase the capacity charge by ten (10) percent.

**Rate Conversions**

1. During the Irrigation Season (April 15 – September 30) (Subject to contractual obligations)

- a. Rate 13 or 14 to Rate 10 – A payment of the difference between the Rate 10 and Rate 13 or 14 capacity charges is required, plus a \$150 service fee. No conversion back to a controllable rate is permitted during that irrigation season.
- b. Rate 13 to Rate 14 – A payment of the difference between the Rate 14 and Rate 13 capacity charges is required, plus a \$50 service fee. No conversion back to Rate 13 is permitted during that irrigation season.
- c. Rate 10 to Rate 13 or 14 – Not permitted during the irrigation season.
- d. Rate 14 to Rate 13 – Not permitted during the irrigation season.
- e. All energy will be billed at the rate in effect at the end of the irrigation season.

2. During the Non-Irrigation Season (October 1 – April 15)

A customer may change to any other irrigation rate during the non-irrigation season. (Subject to contractual restrictions.) A service fee of \$150 will be applied for a change from Rate 13 or 14 to Rate 10.

**Service Regulations**

The District's Service Regulations form a part of these schedules.

\*\*\*\*\*

**RATE 10 - FULL SERVICE**

**Availability:** Motors of all sizes.

**Spring Capacity Charge:** (Due April 15th)

\$28.00 per horsepower

**Fall Capacity Charge:** (Billed after irrigation season ends)

\$28.00 per horsepower

**Energy Charge:** (Billed after irrigation season ends)

First 500 kWh per horsepower	\$ .1215 per kWh
All over 500 kWh per horsepower	.0799 per kWh

**Non Operating Relief**

The fall capacity charge shall be reduced by \$8.00/H.P. for customers consuming less than 5 (five) kWh's/H.P. during the irrigation season.

**Operating Schedule:** Power available 100% of time, with exception of scheduled or unscheduled outages.

**Meter Tampering:** Rules outlined in Service Regulations, Section IX.

\*\*\*\*\*

**RATE 12 - STANDBY**

**Type of Service:** Nonconnected - service maintained so it will be available the following season.

**Capacity Charge:** (Due April 15th)

\$13.00 per horsepower

**Application:**

The District must receive a request for standby irrigation service in the form of the District's standard application for service by April 15th of the year for which standby service is desired. This application shall cover only one year with subsequent applications being required for additional years. If a customer wishes to change to irrigation Schedule 10 (Full Service), 13 or 14, such customer shall pay the difference between the capacity charges of Rate Schedule 12 and that of Rate Schedule 10, 13 or 14.

\*\*\*\*\*

**RATE 13 - ANYTIME INTERRUPTIBLE**

**Availability:** Motors 20 HP or greater.

**Spring Capacity Charge:** (Due April 15th)

\$11.10 per horsepower

**Fall Capacity Charge:** (Billed after irrigation season ends)

\$11.10 per horsepower

**Energy Charge:** (Billed after irrigation season ends)

First 500 kWh per horsepower	\$.0966 per kWh
All over 500 kWh per horsepower	\$.0647 per kWh

**Operating Schedule:**

Power available on holidays, plus guaranteed minimum of 11:00 p.m. to 9:00 a.m. Sunday through Saturday. Customer will be notified each day prior to 9:00 a.m. as to whether any operations will be allowed from 9:00 a.m. to 11:00 p.m. No services will be interrupted more than six (6) hours on Sunday or twelve (12) hours on any other day or more than seventy-two (72) hours in any one calendar week. Interruptions are made only on days when peak power levels are being exceeded. The District, at its discretion, may interrupt service during operating hours normally allowed if the District's power supplier requests emergency control.

**Meter and Load Control Tampering:** Rules outlined in Service Regulations, Section 900.

**RATE 14 - THREE DAYS ON/FOUR DAY INTERRUPTIBLE**

**Availability:** Motors 20 HP or greater.

**Spring Capacity Charge:** (Due April 15th)

\$20.25 per horsepower

**Fall Capacity Charge:** (Billed after irrigation season ends)

\$20.25 per horsepower

**Energy Charge:** (Billed after irrigation season ends)

First 500 kWh per horsepower	\$.0978 per kWh
All over 500 kWh per horsepower	\$.0664 per kWh

**Operating Schedule:** Customers may choose between either Schedule 1 or 2. The District reserves the right to assign the customer to either Schedule 1 or 2.

1. All day Monday, Tuesday, and Wednesday, plus minimum of 11:00 p.m. to 9:00 a.m. Thursday, Friday, and Saturday and eighteen (18) hours on Sunday.
2. All day Thursday, Friday, and Saturday, plus minimum of 11:00 p.m. to 9:00 a.m. Monday, Tuesday, and Wednesday and eighteen (18) hours on Sunday.
3. No services will be interrupted more than twelve (12) hours in any one day Monday through Saturday.
4. No services will be interrupted more than six (6) hours on Sunday.
5. The District, at its discretion, may interrupt service during operating hours normally allowed if the District's power supplier requests emergency control.

**Meter and Load Control Tampering:** Rules outlined in Service Regulations, Section 900.
