Norris Public Power District Makes Progress On Restoring Outages

Norris Public Power District continues to restore power associated with the winter storm that struck southeast Nebraska on Monday. By the end of tonight, the District is anticipating to have power restored to all customers south of Highway 8 and all customers west of the Odell blacktop. In addition, crews will continue to work on replacing broken poles and conductor south of Highway 4 tonight.

The District currently has over 85 men in the field working on restoration efforts from eight different public power districts as well as the Beatrice Board of Public Works and Schmader Electric.

The District estimates we will have less than 300 customers without power overnight tonight. Customers currently without power should make alternate arrangements for shelter for tonight and tomorrow.
