Norris Public Power District Storm Outage

Due to high winds overnight, Norris Public Power District experienced an outage from approximately 1:25 a.m. to 3:45 a.m. During this time the town of Diller and the town of Plymouth were without power. In total the outage affected approximately 1400 meters. The cause of the outage was due to a pole that had broken off just south of the Dewitt substation.

Norris Public Power did not experience any other outages due to the storm.
